

Wow!! This was such an amazing year for our school in Kenya! Thanks so much for your continued support!

In April, we began a small construction project of adding one floor of classrooms. However, by the end of the year, we constructed four floors of classrooms with a large walled play area on the fifth floor. This year taught me, once again, to never limit what God can do! We now have a facility which will allow us to provide high quality Godly education to over 300 children. Of course, as our capability increases, so does our financial need!

In March we held our first 8th Grade graduation. This was delayed because of Covid so we also held our second 8th Grade graduation in December. There have now been 30 students graduate from our school and we are working with each of them as they enter their first and second year of High School. The fees for students to attend High School are about \$50 per month and we are taking on this responsibility – hopefully all the way through High School graduation.

Thank you!! This could not happen without the support of many who make faithful donations. Children are being fed, loved, educated, and taught about a loving God who gave His Son so we can be with Him for all eternity. Lives are truly being changed and I'm praying you will join us for many more years!

One truly incredible and humbling part of this project is that it wasn't really planned. I never had a grand vision. God just continues to move, and I just try to hold on and move with Him. We now have a quality facility and the best staff I could possibly desire. It's ALL God, but we need committed partners. Please continue to pray for and financially support this effort as you are able.

Your Brother in Christ,

Steve Troxel
