

This has been another great year where God has been glorified and lives have been changed. Email devotional messages continue to be sent all around the world, and our school in Kenya continues to teach about the love of Jesus while empowering many lives through quality education.

Our school is the education center for 250 kids from preschool through eighth grade. God's Daily Word Ministries provides 100% of the funding for this school. We own the facility and pay a staff of 31, provide breakfast and lunch every school day, provide uniforms to all the kids, and fund all other necessary expenses associated with running a school.

The responsibility for all this is sometimes overwhelming! But God continues to provide through many people like you.

Our school is located in an extremely poor area called Mathare, on the outskirts of Nairobi. Most families live in a single 10x10 room and face a daily struggle with simply having enough to eat. There are other government schools available in the area, but none with the quality of Godly and loving teachers as we have. We are also able to provide food and uniforms which are a big help to the families. The result of an education at our school is students who know about the saving love of God through faith in Jesus Christ. They also receive an education which makes them able to compete for high school positions at the better schools. All these are boarding schools.

This year we had 18 students graduate eighth grade and successfully test for admission to high school. We now have 45 students enrolled in high school, working hard to complete their education.

Our ministry has taken on the responsibility of paying all of the fees, uniforms, and general expenses for all of our high school students. The cost is about \$500 per student per year, a cost few families in Mathare could pay. Thank you for your continued support! We are changing lives for now and for all eternity.

Steve Troxel
President, God's Daily Word Ministries
